DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The house on this farm is a two story, five bay brick structure with Flemish bonding at the front wall and common bonding at the other elevations. High flat arches are present above first story windows. The main entrance is located in the center bay of the front elevation which is off set slightly toward the north. Windows have late 19th century two over two pane sashes.

Northeast of the house is the site of a former grist mill. No evidence of it remains except for a mill dam of old concrete. On a hill west of the house is a cemetery where members of the Middlekauff family are buried.

The house would appear to date from the second quarter of the 19th century.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

This complex is significant as a farm, milling operation and for the family cemetery on the property. The house, although run down, is stately and a good example of period brick vernacular architecture.
